Education

1984-1989   Public elementary school   Roelofarendsveen, The Netherlands
- Normally this takes six years, but I skipped the second year.

1989-1995   Stedelijk Gymnasium Leiden   Leiden, The Netherlands
- Finals: Dutch, English, German, (ancient) Greek, Biology, Physics, Chemistry, Mathematics (A), Mathematics (B)
- Average mark: 8.55 (1=very bad, 10=excellent)

1995-2001   University of Twente   Enschede, The Netherlands
- Student at Faculty of Computer Science, Group TKI (Language, Knowledge and Interaction).
  This group conducts research on
  - Man-Machine Interaction
  - Language Technology
  - Knowledge Based Technology
- Main interest in Language Technology.
- Courses include: programming, databases, computer architecture, knowledge technology, language technology, speech technology, formal analysis of natural languages, software engineering, object oriented programming, mathematics (calculus, graphs, statistics, logic, algebra, etc.), human-computer interaction and many more (about 50).
- More information about the University of Twente at:
  http://www.utwente.nl/uk/
- More information about the Faculty of Computer Science at:
  http://www.cs.utwente.nl/eng/
- On August 31, 2001 I received the title of Ingenieur, equivalent to master of science (M.Sc).

Work experience

2004-today   Quarantainenet BV   Enschede, The Netherlands
- Co-founder and CTO of Quarantainenet BV, a software company building and selling network security systems. http://www.quarantainenet.nl

2005-today   Eyckelhof Holding BV   Enschede, The Netherlands
- Consultant on various large-scale ICT infrastructure projects; including DigiD (single government sign-on for all inhabitants of The Netherlands) and a startup MMORPG company.

2001-2006	Multigator vof	Enschede, The Netherlands

- Co-founder of Multigator vof, a company specializing in software for mobile communication solutions with a special interest in interoperability and scalability.

2001-2002	University of Twente	Enschede, The Netherlands

- Employed as an "information manager" at the university's liaison office, working on various projects.

1999-2000	Information Sciences Institute (ISI) Marina del Rey, United States

- From October until February I did an internship at ISI, which is a part of the University Of Southern California (USC) in Los Angeles. I worked on speech technology for web based educational agents with the CARTE group. (Center for Advanced Research in Technology for Education)
- More information about ISI at: http://www.isi.edu/ and the CARTE group http://www.isi.edu/isd/carte/

1997-2001	University of Twente	Enschede, The Netherlands

- At the University of Twente I worked as a student assistant. I assisted teachers, by helping students from other faculties with their programming courses.
- Since 1998 I was also a teacher for the course mentioned above.

1995-1997	Laboratorium Van der Sprong	Roelofarendsveen, The Netherlands

- Every summer these years I worked for 6 weeks at this laboratory which provides consulting and scientific support services to the food and horticultural industries.
- Tasks varied from laboratory work to analyzing and testing new software.
- More information about Laboratorium Van der Sprong at: http://www.spronglab.nl/uk/index.html

1993-1994	Dagblad Unie	Rotterdam, The Netherlands

- Paper-boy for "Algemeen Dagblad", a Dutch morning paper.

Interests

- Running. I often go running with friends (5 - 15 km.)
- Photography, music (listening), cooking, reading.
- Technology.
